11	<p>Read the passage and answer the questions. Language is a system of sounds, gestures, or characters for communicating among people in the world. People use language to communicate with each other. They exchange knowledge, beliefs, wishes, and feelings through it. Deaf and dumb people around the world use gestures and body movements to express their ideas. Languages are always changing, but, they change very slowly. People invent new words for their language, take words from other languages, and change the meaning of the words as needed. The most popular language in the world is Chinese. More than one billion people in the world speak Chinese. Interestingly, English has fewer native speakers than Chinese, but there are about one billion learners of English all around the world. All languages are really valuable. It is impossible to imagine the world without language.
